AGRI AB BEEF

ABOUT

ABOUT US

SUSTAINABILITY

TOTAL QUALITY

ANIMAL WELL-BEING

RESPONSIBILITY

RESOURCE SUSTAINABILITY

The Rebholtz family started as ranchers when Agri Beef was formed in 1968. Today, they continue to recognize the importance of supporting the long-term sustainability of family farms and ranches in the Northwest. The company works to keep this traditional way of life viable for future generations by providing strong economic opportunities.

To preserve our resources for future generations, Agri Beef implements sustainable practices such as local crop sourcing, water reclamation and composting through every step of the beef lifecycle.

- At the Double R Ranch our rotational grazing program promotes healthy rangelands
- We source a majority of our cattle feed within 150 miles of each feedyard location
- Composting is used to recycle our cattle waste into nutrient rich fertilizer for area farmers
- We have reduced our water use by 40% per pound of beef at AB Washington Beef
- The biogas dome at our processing plant displaces 20% of our natural gas needs
- Our beef tallow is used to create fuel at our biodiesel plant

sustentabilidade

Agricultura Sustentável

Na Vitacress a sustentabilidade assenta em quatro políticas que permitem garantir um impacto positivo e o não comprometimento dos recursos que serão necessários às gerações futuras.

Ambiente (engloba a água, os resíduos, a energia e a biodiversidade):

Para nós, só existe um caminho: preservar o que é natural. A paixão e o respeito pelo ambiente faz-nos querer ir mais longe em tudo o que fazemos. Comprometemo-nos a utilizar sustentadamente os recursos naturais que temos ao nosso dispor, apostando nas melhores técnicas e boas práticas agrícolas e de produção, garantindo a sustentabilidade ambiental e do ecossistema, reconhecidas pelos standards da Global G.A.P., LEAF e ISO 14001 onde somos certificados.

[Ver política ambiental](#)

Responsabilidade social:

A Vitacress assume a sua responsabilidade na relação com as pessoas e com a comunidade envolvente através de protocolos de colaboração com várias instituições a nível nacional. É neste sentido que doamos produtos para cabazes sociais, integramos pessoas portadoras de deficiência em contexto de trabalho, instalamos hortas pedagógicas, apoiamos eventos de desenvolvimento local e projetos de proteção ambiental, apoiamos a formação curricular de jovens em idade escolar e envolvemo-nos em projetos de investigação científica.
